**Summary of reasons
for classification:**

The computer moving image file *Brazilkids (Pthc Kidsex Underage) Nobull 2 Wonderful 11 Yo Girls & shy same age boy gets vagina fucked by one, littler girl gets him off again some kiddy pedo outercourse styles.mpg* is classified as:
Objectionable.

The file promotes and supports the exploitation of children and young persons for sexual purposes. It contains a ten-minute clip consisting of poor-quality footage that depicts nude sexual displays and sexual activity involving two girls approximately 10-12 years old and a boy who appears to be older. An adult may also be engaged in the sexual activity at a later point in the scene. The clip is intended for the sexual titillation and arousal of adults with a sexual interest in children and young persons. It encourages viewers to see the young as sexually desirable and available for sexual gratification. The effect is to validate a sexual interest in children and young persons and encourage their sexual exploitation.

The classification of this publication interferes with the right to freedom of expression set out in the New Zealand Bill of Rights Act 1990. However, this is an outcome that is consistent with Parliament's clear intention in s3(2) of the Films, Videos, and Publications Classification Act 1993. The classification is a reasonable limitation on the freedom of expression that reflects the concern of a free and democratic society to limit the availability of publications that promote and support the exploitation of children and young persons for sexual purposes.
